

**Summary Prospectus**

**Gerstein Fisher Multi-Factor® International Growth Equity Fund**

**Trading Symbol: GFIGX**

**March 30, 2019**

Before you invest, you may want to review the Gerstein Fisher Multi-Factor® International Growth Equity Fund’s (the “International Growth Equity Fund” or the “Fund”) Prospectus, which contains more information about the Fund and its risks. You can find the Fund’s Prospectus and other information about the Fund online at <http://gersteinfisherfunds.com/literature/>. You may also obtain this information at no cost by calling 800-473-1155 or by sending an email to [Info@gersteinfisher.com](mailto:Info@gersteinfisher.com). The Fund’s Prospectus and Statement of Additional Information, both dated March 30, 2019, are incorporated by reference into this Summary Prospectus.

**IMPORTANT NOTE:** Beginning on January 1, 2021, as permitted by regulations adopted by the U.S. Securities and Exchange Commission, paper copies of the Fund’s annual and semi-annual shareholder reports will no longer be sent by mail, unless you specifically request paper copies of the reports. Instead, the reports will be made available on the Fund’s website (<https://gersteinfisherfunds.com/literature/>), and you will be notified by mail each time a report is posted and provided with a website link to access the report.

You may elect to receive all future reports in paper free of charge. If you invest through a financial intermediary, you can contact your financial intermediary to request that you continue to receive paper copies of your shareholder reports. If you invest directly with the Fund, you can call 800-473-1155 or send an email request to [Info@gersteinfisher.com](mailto:Info@gersteinfisher.com) to let the Fund know you wish to continue receiving paper copies of your shareholder reports. Your election to receive reports in paper will apply to all funds held in your account if you invest through your financial intermediary or, if you invest directly with the Fund, to all Gerstein Fisher Funds you hold.

**Investment Objective**

The investment objective of the Fund is long-term capital appreciation.

**Fees and Expenses of the Fund**

This table describes the fees and expenses that you may pay if you buy and hold shares of the Fund.

<b>Shareholder Fees</b> (fees paid directly from your investment)	
Redemption Fee (as a percentage of amount redeemed within 60 days from the date of purchase)	1.00%
<b>Annual Fund Operating Expenses</b> (expenses that you pay each year as a percentage of the value of your investment)	
Management Fees	0.85%
Other Expenses	0.21%
Total Annual Fund Operating Expenses	1.06%
Fee Waiver/Expense Recoupment	0.05%
Total Annual Fund Operating Expenses after Fee Waiver/Expense Recoupment <sup>(1)(2)</sup>	1.11%

<sup>(1)</sup> Pursuant to an operating expense limitation agreement between the Fund’s investment advisor, People’s United Advisors, Inc., doing business as Gerstein Fisher or Gerstein Fisher Asset Management (the “Advisor”), and the Trust, on behalf of the Fund, the Advisor has agreed to waive part of its management fees and/or reimburse expenses of the Fund to ensure that Total Annual Fund Operating Expenses (exclusive of front-end or contingent deferred loads, Rule 12b-1 plan fees, shareholder servicing plan fees, taxes, leverage (*i.e.*, any expenses incurred in connection with borrowings made by the Fund), interest (including interest incurred in connection with bank and custody overdrafts), brokerage commissions and other transactional expenses, expenses incurred in connection with any merger or reorganization, dividends or interest on short positions, acquired fund fees and expenses or extraordinary expenses such as litigation (collectively “Excluded Expenses”)) do not exceed 1.10% of the Fund’s average daily net assets through March 30, 2020. The operating expense limitation agreement can only be terminated by, or with the consent of, the Trust’s Board of Trustees (the “Board of Trustees”). The Advisor may request recoupment of previously waived fees and paid expenses from the Fund up to three years from the date such fees and expenses were waived or paid, subject to the operating expense limitation agreement, if such

reimbursement will not cause the Fund's expense ratio, after recoupment has been taken into account, to exceed the lesser of: (1) the expense limitation in place at the time of the waiver and/or expense payment; or (2) the expense limitation in place at the time of the recoupment.

<sup>(2)</sup> Total Annual Fund Operating Expenses After Fee Waiver/Expense Recoupment includes interest expense of 0.01%, which is an Excluded Expense.

### *Example*

This Example is intended to help you compare the costs of investing in the Fund with the cost of investing in other mutual funds. The Example assumes that you invest \$10,000 in the Fund for the time periods indicated and then redeem all of your shares at the end of those periods. The Example also assumes that your investment has a 5% return each year and that the Fund's operating expenses remain the same. The operating expense limitation discussed in the table above is reflected only through March 30, 2020. Although your actual costs may be higher or lower, based on these assumptions, your costs would be:

<u>1 Year</u>	<u>3 Years</u>	<u>5 Years</u>	<u>10 Years</u>
\$113	\$353	\$612	\$1,352

### *Portfolio Turnover*

The Fund pays transaction costs, such as commissions, when it buys and sells securities (or "turns over" its portfolio). A higher portfolio turnover rate may indicate higher transaction costs and may result in higher taxes when Fund shares are held in a taxable account. These costs, which are not reflected in annual fund operating expenses or in the Example, affect the Fund's performance. During the most recent fiscal year the Fund's portfolio turnover rate was 26.38% of the average value of its portfolio.

### **Principal Investment Strategies**

Under normal market conditions, at least 80% of the Fund's net assets will be invested in equity securities. The Fund seeks to invest primarily in common stocks of international companies of any size, including foreign securities and securities of U.S. companies. The Fund may invest in foreign securities which may include securities of companies in emerging markets or less developed countries. Equity securities that the Fund may invest in include common stocks, preferred stocks, exchange-traded funds ("ETFs") that invest in equities, individual stock options and options on stock indices. The Fund's investments in common stocks of international companies may include depositary receipts, such as American Depositary Receipts ("ADRs") and European Depositary Receipts ("EDRs"). The Fund typically invests in securities of issuers from at least three or more non-U.S. countries, with at least 40% of the Fund's net assets invested in foreign securities. Foreign securities are determined to be "foreign" on the basis of an issuer's domicile or location of headquarters (as determined by the Advisor).

The Advisor uses a "structured" quantitative style of management and constructs the Fund's portfolio using a multi-factor optimization model that examines possible combinations of stocks with the goal of finding an optimal combination which maximizes expected return potential while managing exposure to risk. "Structured" management means the Advisor's models seek to facilitate highly customized risk/return objectives. The Advisor's model includes analysis of fundamental factors, statistical factors and macroeconomic factors, including, but not limited to size, value, momentum, profitability, external financing and liquidity. The Advisor seeks to maximize returns by overweighting stocks with positive characteristics identified in the return models and underweighting stocks with negative characteristics relative to their benchmark weights. The Advisor's investment model evaluates many different security combinations and weightings in an effort to construct the most efficient risk/return portfolio given the Fund's benchmark. Transaction costs are considered at every step of the process, from the weighting of investment themes to portfolio optimization, to trading. The Advisor seeks to trade with maximum efficiency using integrated trading systems and transaction cost-management techniques.

The Fund will purchase securities that the Advisor identifies as having the potential for long-term capital appreciation. The Fund may sell securities at any time when, in the Advisor's judgment, circumstances warrant their sale. While this sell strategy may cause the Fund to have an annual portfolio turnover rate in excess of 100%, it also means the Advisor will sell investments when it believes there are better investment alternatives. In light of this expected high level of portfolio turnover, the Advisor believes that effective management of transaction costs is essential. The Advisor seeks to balance maintaining the desired exposure to positive "momentum" and all other factors with higher transaction costs.

A portion of the Fund's assets may be held in cash or cash-equivalent investments, including, but not limited to, short-term investment funds. The Fund may also invest up to 20% of its net assets in other ETFs and derivative instruments, such as financial futures contracts, options and currency-related transactions involving futures contracts and forward contracts for various portfolio management purposes, including, but not limited to, reducing transaction costs, increasing overall liquidity of the Fund, gaining exposure to outside markets not ordinarily available, and to mitigate risks. In general terms, a derivative instrument is one whose value depends on (or is derived from) the value of an underlying asset, interest rate or index. The

Fund may be appropriate for investors who want to add an investment with potential for capital appreciation to diversify their investment portfolio. The Fund is not appropriate for investors concerned primarily with principal stability or those pursuing a short-term goal.

### **Principal Risks**

Before investing in the Fund, you should carefully consider your own investment goals, the amount of time you are willing to leave your money invested and the amount of risk you are willing to take. Remember, in addition to possibly not achieving your investment goals, **you could lose money by investing in the Fund.** The principal risks of investing in the Fund are:

- *Management Risk.* The Advisor's investment strategies for the Fund may not result in an increase in the value of your investment or in overall performance equal to other investments.
- *General Market Risk.* The value of the Fund's shares may decrease based on the performance of the Fund's investments and other factors affecting the securities markets generally.
- *Equity Market Risk.* Common stocks are susceptible to general stock market fluctuations and to volatile increases and decreases in value as market confidence in and perceptions of their issuers change. Preferred stock is subject to the risk that the dividend on the stock may be changed or omitted by the issuer, and that participation in the growth of an issuer may be limited.
- *Large-Cap Company Risk.* Larger, more established companies may be unable to respond quickly to new competitive challenges such as changes in consumer tastes or innovative smaller competitors. Also, large-cap companies are sometimes unable to attain the high growth rates of successful, smaller companies, especially during extended periods of economic expansion.
- *Mid-, Small- and Micro-Cap Company Risk.* The securities of mid-cap, small-cap and micro-cap companies may be more volatile and less liquid than the securities of large-cap companies.
- *Foreign Securities, Foreign Currency and Emerging Markets Risk.* Foreign securities are subject to risks relating to political, social and economic developments abroad and differences between U.S. and foreign regulatory requirements and market practices, including fluctuations in foreign currencies. Income earned on foreign securities may be subject to foreign withholding taxes. In addition, the Fund may invest in emerging markets which may be more volatile than the markets of developed countries.
- *Exchange-Traded Fund Risk.* Unlike mutual funds, ETFs do not necessarily trade at the net asset values of their underlying securities, which means an ETF could potentially trade above or below the value of the underlying portfolios. Additionally, because ETFs trade like stocks on exchanges, they are subject to trading and commission costs, unlike open-end investment companies.
- *Options Risk.* Options on securities may be subject to greater fluctuations in value than an investment in the underlying securities.
- *Value Stock Risk.* Value stocks may perform differently from the market as a whole and may continue to be undervalued by the market for long periods of time.
- *Growth Stock Risk.* The prices of growth stocks may be more sensitive to changes in current or expected earnings than the prices of other stocks.
- *Derivatives Risk.* Risks of derivatives include the possible imperfect correlation between the value of the instruments and the underlying assets; risks of default by the other party to the transaction; risks that the transactions may result in losses that partially or completely offset gains in portfolio positions; and risks that the instruments may not be liquid.
- *Momentum Risk.* Securities with "momentum" that have recently had above-average returns may be more volatile than other stocks.
- *Tax Risk.* Certain of the Fund's investment strategies, including transactions in options and futures contracts, may be subject to special tax rules, the effect of which may have adverse tax consequences for the Fund and shareholders.
- *Not a Bank Deposit.* Investments by any investors in the Fund are not bank deposits, are not guaranteed by any bank, and are not insured or guaranteed by the FDIC or any other government agency.
- *Cybersecurity Risk.* With the increased use of technologies such as the Internet to conduct business, the Fund is susceptible to operational, information security, and related risks. Cyber incidents affecting the Fund or its service providers have the ability to cause disruptions and impact business operations, potentially resulting in financial losses, interference with the Fund's ability to calculate its NAV, impediments to trading, the inability of shareholders to transact business, violations of applicable privacy and other laws, regulatory fines, penalties, reputational damage, reimbursement or other compensation costs, or additional compliance costs.

## Performance

The performance information demonstrates the risks of investing in the International Growth Equity Fund by showing changes in the Fund's performance from year to year and by showing how the Fund's average annual returns for the one-year, five-year and since inception periods compare with those of a broad measure of market performance. Remember, the Fund's past performance, before and after taxes, is not necessarily an indication of how the Fund will perform in the future. Updated performance information is available on the Fund's website at [www.gersteinfisherfunds.com](http://www.gersteinfisherfunds.com) or by calling the Fund toll-free at 800-473-1155.

### Calendar Year Returns as of December 31

The calendar year return for the Fund as of December 31, 2018 was -16.65%. During the period shown in the bar chart, the best performance for a quarter was 13.07% (for the quarter ended September 30, 2013). The worst performance was -13.79% (for the quarter ended December 31, 2018).

### ***Average Annual Total Returns***

Periods Ended December 31, 2018

	One Year	Five Year	Since Inception (1/27/12)
<b>International Growth Equity Fund</b>			
Return Before Taxes	-16.65%	0.83%	6.23%
Return After Taxes on Distributions	-16.85%	0.42%	5.86%
Return After Taxes on Distributions and Sale of Fund Shares	-9.44%	0.77%	5.08%
<b>MSCI EAFE Growth Index</b>	-12.83%	1.62%	5.64%
(reflects no deduction for fees, expenses or taxes)			

After-tax returns are calculated using the historically highest individual federal marginal income tax rates and do not reflect the impact of state and local taxes. Actual after-tax returns depend on an investor's tax situation and may differ from those shown, and after-tax returns are not relevant to investors who hold their Fund shares through tax-deferred arrangements such as 401(k) plans or individual retirement accounts ("IRAs").

In certain cases, the figure representing "Return After Taxes on Distributions and Sale of Fund Shares" may be higher than the other return figures for the same period. A higher after-tax return results when a capital loss occurs upon redemption and provides an assumed tax benefit to the investor.

## Management

### *Investment Advisor*

People's United Advisors, Inc., doing business as Gerstein Fisher or Gerstein Fisher Asset Management, is the Fund's investment adviser. The Advisor is a wholly-owned subsidiary of People's United Bank, N.A. ("People's United").

### *Portfolio Manager*

Gregg S. Fisher, CFA, CFP, Head of Quantitative Research and Portfolio Strategy of the Advisor, is the Portfolio Manager for the Fund and has managed the Fund since its inception in January 2012.

**Purchase and Sale of Fund Shares**

Fund shares are to be purchased and redeemed primarily through financial intermediaries. Investors who wish to purchase or redeem Fund shares should contact the Fund toll-free at 800-473-1155, on any day the New York Stock Exchange (“NYSE”) is open for trading. The minimum initial amount of investment in a Fund is \$250. There is no minimum for subsequent investments in the Fund.

**Tax Information**

The Fund’s distributions will be taxed primarily as ordinary income or long-term capital gain, unless you are investing through a tax-deferred arrangement, such as a 401(k) plan or an IRA. You may be taxed later upon withdrawal of monies from such tax-deferred arrangements.

**Payments to Broker-Dealers and Other Financial Intermediaries**

If you purchase Fund shares through a broker-dealer or other financial intermediary (such as a bank), the Fund and its related companies may pay the intermediary for the sale of Fund shares and related services. These payments may create conflicts of interest by influencing the broker-dealer or other intermediary and your salesperson to recommend the Fund over another investment. Ask your salesperson or visit your financial intermediary’s website for more information.
